

2023 CSA House of Delegates Redistricting New Geographic Districts

In 2023 the CSA House of Delegates approved the redistricting of the CSA Geographic Districts, aligning them with the new California legislative districts. This adjustment is part of the regular redistricting of legislative districts that occurs every 10 years following the census.

Following this statewide effort, the CSA has realigned its Geographic Districts to match the newly established legislative maps. It is important to note that the CSA Geographic Districts are designed with a specific goal in mind. Our focus is on supporting grassroots advocacy efforts, and as such, our districts are strategically aligned around our members' home addresses. Each district is composed of five Senate Districts to ensure comprehensive representation and engagement.

The CSA Geographic Districts have been restructured as follows:

All members will now see their new districts in their CSA profile, and we will be communicating this information to the full CSA membership and House of Delegates. The 2024 House of Delegates nominations and election will utilize the new geographic districts. There are no changes to the mode of practice forums at this time.
